HEalthy Lawns Project New Paltz

# HELP NEW PALTZ

## *Healthy Turf and Landscape Law*

We, the residents of New Paltz, believe that it is our birthright to live in as toxic-free an environment as possible; and we think that New Paltz has a right to enact regulations to protect the health and safety of its citizens. That's why we support the passing of the proposed **Healthy Turf and Landscape Law** that will give our local municipality the power to restrict the aesthetic use of lawn-care pesticides in our Town and Village. We fully support the adoption of the **Healthy Turf and Landscape Law for New Paltz** and respectfully request the DEC Commissioner to grant New Paltz the authority to protect its community.
